

DeTeWe Control Vision 4000

Digital Video Monitor Set

This Video Monitor Set is perfect to control entrance, reception and waiting areas, salerooms, stock rooms and garages as well as for every place you want to control. Due to the night vision it can be used as baby video monitor in the nursery or to watch the children in the garden or the hobby room. It transmits video and audio. Since it is digital the video monitor set is protected against interference. Sender and receiver can be used by connecting to normal power supply as well as mobile through battery / rechargeable battery.
